NO MIXING

Application

Uses

Substrates

Floor & wall tiles
Showers
Toilets
Bench tops

Description

A powerful cleaning solution made from a mild natural acid combined with strong surfactants for removing scum and grime. Revive the sparkle in tiled areas. **Clean Power** is formulated to exceed the requirements of AS1792/1976 for biodegradability.

Uses

Dissolves hard to remove bathroom plaque scale and soap scum stains on shower screens, tiles, baths, spas, bench tops, toilets, taps, sinks and hard surfaces, i.e. glass, porcelain and glazed ceramic tiles, plastic, acrylic and stainless steel chrome.

Features

• Revives the sparkle on hygienic surfaces
• No hard scrubbing is required
• Does not contain chlorine, ammonia or phosphates
• Biodegradable and safe in septic systems
• Pleasant lemon citrus fragrance.

Performance Data

Exceeds the performance requirements of AS1792/1976 for biodegradability.

Application

Apply to the surface to be cleaned, then spread with a cloth. Leave for approximately 30-60 seconds, then wipe or rinse off immediately.

Precautions

Do not use on marble, slate, terrazzo, blue grout, porous tiles and unsealed surfaces. Spot test before use (particularly enamel). Avoid applying to metals (i.e. brass, nickel, aluminium and gold), fabrics, formica, uncoated wood and vinyl.

Safety Directions

Keep out of reach of children.
Avoid contact with eyes. If contact occurs, flush with water. Avoid inhalation in a steamy environment. If swallowed do not induce vomiting, give plenty of water and seek medical advice. Avoid extensive use in confined areas. For very sensitive hands use gloves.

Warning

• **Do not use with or immediately after any chemical or bleach.**
• **Do not allow to dry on glass or mirrors.**
