## A premium, clear, penetrating sealer for polished porcelain and natural stone

### Description

A clear, water based sealer for protecting polished porcelain, stoneware, marble, granite and unpolished natural stone surfaces from moisture. Helps to reduce staining.

### Uses

Apply to polished porcelain, stoneware, polished marble, granite and natural stone to help protect from staining and moisture ingress.

### Features

- Quick acting - will repel water in approximately 24 hours
- Long lasting - giving years of protection
- Seals and protects the surface from moisture and helps to reduce staining
- Will not darken or yellow with age
- Water based - environmentally friendly
- Low V.O.C. content

### Coverage (Approximate)

8-35m<sup>2</sup>/litre, depending on surface porosity.

### Surface Preparation

The surface to be coated must be sound and clean, free from oil, grease and other contaminants. Completely remove any previous coatings and ensure the surface is dry.

**To check the suitability of a sealer, apply a test area before commencing.**

### Application

On polished, natural stone surfaces (e.g. marble and granite) and polished porcelain stoneware, apply one application with a cloth and work into surface irregularities. Immediately remove residue by polishing with a dry cloth. Do not let **Greenseal** dry on the surface. **Be sure any sealer that does not penetrate surface is removed from surface within 5 minutes of application using absorbent paper or cotton towels.** On new grout allow 48 hours before applying **Greenseal**. Shake container well before use.

### Storage

Keep in a cool, dry place away from direct heat.

### Safety Instructions

Ensure adequate ventilation during application and drying period. Avoid contact with skin or eyes, breathing vapour or mist spray. Keep out of children's reach.

### First Aid

If swallowed, **do not** induce vomiting. Drink a glass of water and contact a doctor or Poisons Information Centre.

### Shelf Life

2 years in unopened containers.
