

Anti-Carbonation Coating for Concrete

Packaging

Mixing

Application

Substrates

Concrete

Materials

Natural Sealer (solvent-based sealer)

Surface Preparation

All surfaces must be clean and sound, and free of grease, dust, coatings and other contaminants. New concrete must have cured for 28 days or more.

Workmanship

Apply products in accordance with the manufacturer's written instructions and good trade practice.

Application

Apply two coats of **Natural Sealer** at a rate of 10m²/litre/coat and allow 2-4 hours between coats.
