Dribond Construction Chemicals has been in business since 1974 and has grown into one of the most respected ceramic tile adhesive, waterproofing and repair product manufacturers in Australia, New Zealand and Asia/Pacific, with 7 locations including Adelaide, Brisbane, Melbourne, Perth, Sydney, Auckland and Kuala Lumpur.

Research and Development

Dribond Construction Chemicals has a long and successful history of research and development into improving their product performance and keeping abreast of an ever changing building climate.

Demands on product integrity have never been greater, but with a dedicated team of highly qualified technicians, and heavy investment in their new high-tech, state-of-the-art laboratory in Adelaide, Dribond Construction Chemicals are placing themselves at the forefront of a very competitive market.

Products manufactured to the highest standard, to meet the toughest conditions is the benchmark of Dribond Construction Chemicals. A leader in acoustic development, this new facility and testing equipment enables Dribond Construction Chemicals to bring the very best of products to the market, where results speak for themselves.
MANUFACTURER’S GUARANTEE

ACOUSTIC SYSTEMS
WATERPROOFING MEMBRANES
CERAMIC TILE ADHESIVES

10 Year Manufacturer’s Guarantee

Dribond Construction Chemicals manufacture products in Australia, Asia and New Zealand with over 40 years of manufacturing experience.

Dribond Construction Chemicals guarantees its products for 10 years when applied strictly in accordance with its written application instructions, relevant standards or codes, good trade practice to properly prepared and structurally sound substrates.

The application of its products is beyond the manufacturer’s control and it is the sole responsibility of the purchaser to determine the suitability of the product for their particular purpose.

The guarantee is for 10 years from the time of application and covers only the cost of material and labour of the original installation when the product is proved and acknowledged to be faulty.
ACOUSTIC SYSTEMS

ACOUSTIBOND
Soundproofing ceramic, porcelain and stone tile adhesive.
Coverage
2 x 12.5kg powder plus 20L liquid / 8-10m² using 15mm notched trowel, over a true surface to give a minimum 3mm dry adhesive bed thickness.

ACOUSTIFLOR
Soundproofing and anti-fracture membrane.
Coverage
20 litres of liquid mixed with 20kg of powder covers 7m² at 6mm thick using a 6mm Dribond pegged trowel.

Fast, economical, easy-to-use solution to soundproofing tiles and timber floors in multilevel buildings. Permanently bonds and won’t become drummy. Passes the soundproofing requirements of the BCA when used on 170mm+ slabs.

Acoustibond Application
Hard surfaces must not touch the walls as this will affect the acoustics.

Skirting if required (seal joint with Colour Seal or Sealiflex)
Kemgrout mixed with Primebond
Ceramic tiles
Waterproofing if required
Prime substrate
6mm x 12mm closed cell polyethylene sound absorption tape

</tbody>
</table>

Acoustic tests conducted by Auckland University show that the improvement in acoustic performance (Delta rating) of Acoustibond is ΔLw11dB, and 4.5mm Acoustiflor and Acoustibond ΔLw13dB.

Acoustibond is a trowel applied ceramic tile adhesive and is a fast, inexpensive solution to soundproofing tiles and adhering them at the same time and is the most cost effective acoustic solution.

Acoustiflor is a flexible, levelling, acoustic compound so it levels the floor before adhering the tiles with a ceramic tile adhesive.

The acoustic system can be applied 3, 4, 6 or 9mm thick to achieve the desired acoustic rating and cost.

Acoustiflor and Acoustibond are applied faster than competitive systems and will save cost and time.

Acoustiflor Application
Hard surfaces must not touch the walls as this will affect the acoustics.

Skirting if required (seal joint with Colour Seal or Sealiflex)
Direct stick timber floor
Ceramic tiles or Direct stick timber flooring
Kemgrout mixed with Primebond
Prime substrate
6mm x 12mm closed cell polyethylene sound absorption tape
WATERPROOFING MEMBRANES

FLEXIBLE SEALER
One-pack waterproofing membrane applied prior to tiling bathrooms & balconies or left exposed on roofs & balconies.

Coverage
Two coats give a final coverage of 2L/m² (dry film thickness 1.5mm).

HYDRATHANE
Water-based, polyurethane waterproofing membrane.

Coverage
Floors: Apply two wet coats 0.8mm (800μm) to the floor and 100mm up the surrounding walls to obtain a 1mm (1000μm) dry film thickness.

Walls: Apply two wet coats 0.5mm (500μm) to obtain a 0.6mm (600μm) dry film thickness.

A 15 litre pail covers 10m².

LIQUID FLASH 1
Reinforced, brush applied waterproofing membrane.

Coverage
Two coats give a final coverage of 2L/m² (dry film thickness of 1.5mm).

LIQUID FLASH 2
Two-pack, fast drying, microfibre reinforced, waterproofing and anti-fracture membrane.

Coverage
20L/20kg pack covers 14-18m² (2 coats), dry film thickness 1.5mm.

SHOWER WATERPROOFING KIT
An easily applied waterproofing system prior to tiling.

A waterproofing kit for enclosed shower alcoves. Suitable for use on concrete and compressed cement sheet flooring and walls constructed of brick, block, render, cement sheeting and waterproof gypsum building board.

CONTENTS
• 4L Liquid Flash 1
• 1L Primebond
• Bond Breaker Tape
• 140mm Reomat
• Brush

HYDRALITE
Premium, white & grey, lightweight, multipurpose, for permanently immersed applications.
Coverage
6mm notch - 10-12m² / 13.5kg
10mm notch - 6-8m² / 13.5kg

HYDRALINE
Flexible ceramic tile adhesive.
Coverage
20 litres of liquid mixed with 40kg of powder covers between 18-22m² (10mm notched trowel).

KEMFLEX
Flexible ceramic tile adhesive.
Coverage
3-6m² per 20kg, depending on tile size and trowel notch size.

MACROGRIP
Waterproof ceramic tile adhesive with extra bond.
Coverage
3-6m² per 20kg, depending on tile size and trowel notch size.

MACROLITE
Rubber-modified, lightweight, cement-based adhesive with easy trowelling and extra coverage.
Coverage
13.5kg will cover 8.5-10m² (10mm notched trowel)
CERAMIC TILE ADHESIVES

**MONOLITE**
Premium, water-resistant, flexible, rubber-modified, lightweight, fast-setting, cementitious adhesive.

**Coverage**
13.5kg will cover 8-9m² (10mm notched trowel)

**MOSAICBOND**
Flexible, glass mosaic adhesive/grout.

**Coverage**
1L with 2.4kg Kemgrout Flexible, 1L with 3.6kg Kemgrout Sanded will cover approx 1.0-1.2m².

**RAPIDFIX**
Fast-setting, two-pack adhesive.

**Coverage**
4m² per 20kg/5L pack using 10 x 10mm notched trowel.

**SUREFIX**
White, lightweight, premixed, economical, thin bed, acrylic-based ceramic tile adhesive.

**Coverage**
2kg per m²

**TILEMASTIC**
Premium, white, lightweight, premixed, non-slip, flexible wall adhesive.

**Coverage**
2kg per m²

**TRADEMASTIC**
White, lightweight, premixed, non-slip, flexible acrylic wall adhesive.

**Coverage**
1m²/litre (1.5kg)

**ULTIMA**
Two-pack, white, flexible, premium tile adhesive.

**Coverage**
5L liquid / 12.5kg powder covers 3.5-4m² / 10mm notched trowel and 6-7m² / 6mm notched trowel.

**VITRIGRIP**
Water-resistant tile adhesive.

**Coverage**
3-6m² per 20kg, depending on tile size and trowel notch size.

**MONOLITE**

**SUREFIX**

**TILEMASTIC**

**TRADEMASTIC**

**GROUTS**

**EPEGROUT ULTRA**
A solvent-free, pool grade epoxy grout for joints 1.5mm to 10mm.
**Coverage**
0.8kg/m² for 50mm x 50mm tiles x 3mm joint.

**EPEGROUT TRADE**
A water-based, commercial, sanded epoxy grout for joints 2mm to 10mm.
**Coverage**
1.2kg/m² for 200mm x 200mm tiles x 6mm joint.

**KEMGROUT FLEXIBLE**
Waterproof tile grout, mould and fungi resistant.
**Coverage**
Wall tiles 0.5kg/m²
Mosaics 1.0kg/m²
Over 3mm joints 1-2kg/m²

**KEMGROUT SANDED**
Fine-finish waterproof tile grout, chemical and acid resistant.
**Coverage**
1-2kg/m²

**GROUT SHIELD**
Water-based grout sealer (does not change the grout’s appearance).
**Coverage**
3-8m² per coat/250ml, depending on grout width and porosity.

PATCHING & LEVELLING

**PATCH & ANCHOR**
Fast-setting patching compound.
**Coverage**
15kg/m² at 6mm thickness

**QUICKCRETE**
Fast-setting mortar - 15-20min. set - just add water.

**RAPID SET 45**
Non-slump, fast-set, patching and repair compound.
**Coverage**
1.5kg/m² per 1mm thickness

**REINFORCED SCREED**
Impact-resistant flooring compound.
**Coverage**
3mm thick - 5kg/m²
5mm thick - 8kg/m²

**SKIMFINISH**
A thin, decorative cement floor finish
**Coverage**
4m² per 20kg bag at 3mm thickness.
ELASTAFIX
One-component, hybrid polymer adhesive.
Coverage
Sausage covers 0.8m²

FOAMGRIP
One-pack, moisture-curing, polyurethane adhesive.
Coverage
800g = 1m². Must be applied with a Foamgrip notched trowel. 10 litres covers 18-20m².

ULTRATHANE
One-pack, flexible, moisture-curing, polyurethane adhesive.
Coverage
Sausage covers 0.8m²
CLEAR SEALERS

**DURATHANE**
Two-pack, aliphatic polyurethane, high gloss, clear coating.  
**Coverage**  
8m²/litre/coat (2 coats minimum)

**GREENSEAL**
Premium, clear, penetrating sealer for polished porcelain and natural stone.  
**Coverage**  
8-35m²/litre, depending on surface porosity.

**GROUT SHIELD**
Water-based grout sealer (does not change the grout’s appearance).  
**Coverage**  
3-8m² per coat/250ml, depending on grout width and porosity.

**KEMCOTE GLOSS**
Clear, gloss, ‘wet look’ coating for porous surfaces and slate.  
**Coverage**  
8-10m²/litre/coat

**MICRO SEAL**
Clear, penetrating sealer for polished porcelain and natural stone.  
**Coverage**  
20-30m²/litre

**NATURAL SEALER**
Penetrating sealer that doesn’t change the appearance.  
**Coverage**  
8-10m²/litre/coat

**REVIVE & SEAL**
A solvent-based, penetrating sealer for porous surfaces that highlights the substrate colour.  
**Coverage**  
10-40m²/litre/coat

**SEALCOTE**
Interior/exterior, water-based sealer that preserves the original appearance.  
**Coverage**  
8-10m²/litre/coat

**STONE SEALER**
Clear, gloss, water-based sealer.  
**Coverage**  
10-12m² per litre

**DURATHANE**
Two-pack, aliphatic polyurethane, high gloss, clear coating.  
**Coverage**  
8m²/litre/coat (2 coats minimum)

**GREENSEAL**
Premium, clear, penetrating sealer for polished porcelain and natural stone.  
**Coverage**  
8-35m²/litre, depending on surface porosity.

**GROUT SHIELD**
Water-based grout sealer (does not change the grout’s appearance).  
**Coverage**  
3-8m² per coat/250ml, depending on grout width and porosity.

**KEMCOTE GLOSS**
Clear, gloss, ‘wet look’ coating for porous surfaces and slate.  
**Coverage**  
8-10m²/litre/coat

**MICRO SEAL**
Clear, penetrating sealer for polished porcelain and natural stone.  
**Coverage**  
20-30m²/litre

**NATURAL SEALER**
Penetrating sealer that doesn’t change the appearance.  
**Coverage**  
8-10m²/litre/coat

**REVIVE & SEAL**
A solvent-based, penetrating sealer for porous surfaces that highlights the substrate colour.  
**Coverage**  
10-40m²/litre/coat

**SEALCOTE**
Interior/exterior, water-based sealer that preserves the original appearance.  
**Coverage**  
8-10m²/litre/coat

**STONE SEALER**
Clear, gloss, water-based sealer.  
**Coverage**  
10-12m² per litre
**PENETRATING SEALERS**
Sealers that penetrate into the substrate and do not change the surface appearance.

**NATURAL SEALER**
Penetrating Sealer

**SEALCOTE**
Penetrating Sealer

**STONE SEALER**
Surface Sealer

**REVIVE & SEAL**
Penetrating Sealer

**UNCOATED**
Surface Sealer

**KEMCOTE GLOSS**
Surface Sealer

**GREENSEAL**
Penetrating Sealer

**MICRO SEAL**
Penetrating Sealer

**DURATHANE**
Surface Sealer

**SURFACE SEALERS**
Sealers that coat surfaces and give the substrate a wet look.
**COATINGS**

**DECKGRIP**
Slip-resistant, flexible, waterproof coating.
**Coverage**
1m²/litre (2 coats)

**DRIVEWAY STAIN**
A decorative concrete stain.
**Coverage**
Wood float: 5-7m²/litre/coat (two coats are required). 3 coats may be required on some substrates.

**ELASTAKOTE**
Flexible, acrylic waterproofing coating.
**Coverage**
6m²/litre at 100 microns thick. 2 coats for normal applications. 3 coats for severe applications.

**EPESHIELD**
Chemical and wear-resistant epoxy coating.
**Coverage**
7m²/litre at 100 microns thick. Final application of 200 micron or greater is recommended.

**ROLTEX**
Textured Finish.
**Coverage**
2m² per litre
SEALANTS

COLOUR SEAL
Tough, flexible, premier sealant and gapfiller.
Coverage
5mm x 5mm joints: 12m/cartridge
10mm x 10mm joints: 3.5m/cartridge

SEALFLEX
Multipurpose sealant and adhesive. Low VOC.
Coverage
5mm x 5mm joints: 12m/cartridge
10mm x 10mm joints: 3m/cartridge

SMOOTHING AGENT
Smoothing agent for sealants.

COLOUR SEAL
Tough, flexible, premier sealant and gapfiller.
Coverage
5mm x 5mm joints: 12m/cartridge
10mm x 10mm joints: 3.5m/cartridge

SMOOTHING AGENT
Smoothing agent for sealants.

MAINTENANCE

KEMCLEAN
Tile, brick, stone and concrete cleaner.
Coverage
10-15m²/litre undiluted

CLEAN POWER
Powerful bathroom cleaner.
Coverage
10-40m²/litre/coat

TILE GRIP
Reduces slip on wet tiled floors.
Coverage
1L covers approximately 10-12m² depending on surface type.
